Funding the Future
A Philanthropic and Tribute Gifts Program for Bel-Nor
This proposal identifies three Bel-Nor islands - representing a diversity of scale, need and existing development - for a potential pilot program offering five levels of philanthropic investment or tribute gift opportunities. The three islands, listed in order of size, are Brocton Court, Moniteau Drive (at its intersection with Audrain Drive) and Clearview Drive (at its intersection with Racquet Drive).

The five proposed levels of philanthropic or tribute gifts, in order of investment, are sponsorships for the renovation or installation of:

- a small garden (estimated cost $100)
- a mature tree ($300 - $500)
- a “free little library” ($500)
- a bench ($800-$1000)
- a small playground ($2000-$5000)

The cost of materials and labor for both the installation and maintenance of the gift would be accounted for in the final amount. Each gift should be offered with an opportunity for public acknowledgement as a form of thanks and remembrance. The most costly gifts could accommodate multiple sponsors sharing credit for the completion of these ambitious long-lasting public projects.
Establishing a process for funding minor and major projects, whether through small tribute donations, city-wide fundraising campaigns - capturing small donations from hundreds of Bel-Nor residents - or thanks to the sizable gifts of one generous group or donor, will allow Bel-Nor to continue to grow in its ambitions and evolve to meet emerging demands. A philanthropic and tribute gifts program would provide Bel-Nor residents, past and present, with a wishlist of shared goals, a structure for their realization and an outlet for expressing gratitude and commitment to the community.
The Uchitelle Garden of Reflection

The City of Clayton dedicates this garden to former mayor Ben Uchitelle in honor of his years of community leadership.
